

Features

- Purify water: decompose the heavy metals, remove bacteria
- Strong sterilizing effect, kill virus and germs
- Speedy remove / dissolution of remnant agriculture chemical in vegetables and fruits.
- Clean fruits and vegetable and keep them fresh
- High concentration of ozone to the water can be used for shower, face washing to prevent and cure the dermatitis
- Brush teeth to avoid halitosis and teeth disease
- Auto dehumidify device. Switched off automatically in 30 min
- Easy operation with power functional indication
- Easy to install and require low maintenance
- Ideal for kitchen, bedroom, bathroom, office, hotel, hospital, restaurant and school use

Specifications

Ozone density: >0.3PPM
 Working voltage: DC 12V, 1000MA
 Power consumption: 6W
 Related humidity: RH40-90%
 Unit size: 155 x 65 x 222mm
 Unit weigh: 350g
 Operation temperature: 0~50°C

Examination report on germs killing

Examination Item	Report No	Unit	Initial Colony Count	Colony After 1 Min	Removing Rate
<i>S. aureus</i>	PX/2006/AO13601	CFU/ ml	29-.9 x 10 ⁵	<10	99%
<i>E. coli</i>	PX/2006/AO13601	CFU/ ml	29-.9 x 10 ⁵	<10	99%
<i>C. albicans</i>	PX/2006/AO13601	CFU/ ml	29-.9 x 10 ⁵	<10	99%

Report on removing agricultural chemicals

Examination Item	Report No	Unit	Initial Concentration	Concentration After 1 Min	Removing Rate
Solvent for carbofuran agricultural chemicals	PX/2006/4002101	mg/kg	0.152	0.041	73%

Turning tap water into O₃ sterilizing ozone water

VR-888

OZONE WATER GENERATOR

- Speedy generation of ozone water in 1/6 seconds
- Germs killing, sterilization, purification and protection of health
- Easy to install, silent operation and power saving
- SGS certified effects in sterilizing and removing agricultural chemicals

Where, When and Why?

1. Food preservation anticorrosion

Cleaning and soaking with ozone water can inhibit bacteria growth and extend the period of freshness for raw food such as meat and seafood.

2. Refrigerator deodorizer

Ozone has a strong odour control characteristics. Use ozone water to clean the refrigerator to remove unpleasant odour.

3. Removal of surface residues of pesticides

Clean the surface of fruits and vegetables to remove pesticide and agriculture chemical residues, and to maintain the freshness

4. Baby milk bottle and pacifier disinfection

Wash baby products such as milk bottle and pacifier with VR-888 ozone water. Ozone antibacterial power is able to prevent infectious diseases.

Good helper of disinfection and sterilization

5. Removing pet odour

Ozone water serves as natural bactericidal agent removing pet odour

6. Cleaning indoor environment

Ozone water is able to perform effective sterilization replacing the use of bleach. It is more effective than chlorine and being able to sterilize over a short period of time. Ozone water can be used to clean indoor environment such as bathroom, kitchen and living room.

7. Deep clean skin with high oxygen

Daily use of ozone water to wash face, body and hand will reduce skin infection. Rinsing mouth with ozone water helps to reduce bacteria growth and eliminate the problem of mouth odour. Toothbrush and dentures is a common place for bacteria growth. Rinse your toothbrush and dentures with ozone water for complete disinfection and sterilization.

SGS International Certification

Ozone water generated from VR-888 is able to

5 ~ 15 seconds : Kill 99.999% *Staphylococcus aureus*, *Escherichia coli* and *Candida albicans*

20 ~ 50 seconds: Kill mold, achieve preservation

1 ~ 2 minutes : Elimination of residual chlorine smell from water and other odour

2 ~ 5 minutes : Decomposition of pesticides and agricultural chemical residues on the surface of fruits and vegetables
